10:45AM	Breakout Session 2: Toad Tips and Tricks—New 10g Features Design of a Virtualized RAC System	Susan Wong—Quest Software Mike Rede—ASG Virtual.com
12:00PM	Quest Sponsored Lunch and Learn Advanced Performance Monitoring for Oracle 10g Oracle 10g is now in release two, which means many companies are starting to plan their migrations. Proper migration plans should include preparation to ensure applications will perform well under Oracle 10g -- and continue to run well. This presentation will include techniques and process available for the serious minded IT organization responsible for critical applications where a successful 10g deployment is a requirement.	Joe Leslie—Quest Software
1:15PM	Raffle and Wrap-up	

Please note that our OCOUG meeting on Wed., August 24, 2005 will be held at:

The Irvine Hilton  
18000 Mac Arthur Blvd.  
Irvine, CA 92612
